

Implementation of Mandatory Procedural Step in Training & Assessment Process

Skill Council for Mining Sector has added an important mandatory procedural step aimed at ensuring adherence to qualification-wise eligibility criteria for all candidates effective from **1st May 2024** as part of compliance. Henceforth, it is imperative for Training Partners to validate the qualification-wise eligibility criteria of every candidate prior to enrolment into any training programs. Similarly, Assessment Agencies are obligated to verify the eligibility criteria before conducting any assessments.

This enhancement is pivotal in maintaining the integrity and standardization of our processes and ensure that all candidates participating in training and assessments meet the necessary qualification criteria as per the standards. In the event of a candidate failing to meet the specified eligibility criteria during assessment, they will be deemed ineligible to proceed further.

This procedure is crucial in upholding the credibility and fairness of our trainings & assessments, and it ensures that only eligible candidates proceed to training & assessment, in accordance with our compliance standards. The eligibility criteria for every job role is mentioned in the respective Qualification File which is available on our website or NQR portal –
